Feature	Instant Payroll	Instant Payroll Enhanced	Sage Payroll	Sage Payroll Professional
Minimum Wage Management - Comprehensive management of minimum wage calculations and updates			✓	✓
Statement of Employment Particulars - Ability to automatically generate Statements of Employment Particulars and updates when relevant changes are made			✓	✓
Electronic Payslip Management - Allows the quick and easy generation of electronic payslips to those employees who have elected to be notified of their pay and deductions in this way			✓	✓
Batch Timesheet Entry and Import - Allows the entering or importing of deductions (such as attachments of earnings) as well as pay elements, speeding up data capture. Also improvements to the Data Import Templates for example separate lines are no longer required for each pay element				✓
Secure pdf and electronic payslip generation - Allows the creation of secure pdf reports including payslips			✓	✓
Advanced Data Import - This new feature makes it easy to import information, whether this is from a competitor product (payroll or HR), to import timesheets (Professional only), create new data or to update existing data			✓	✓
Employee Groups - Allows the creation of user definable employee groups			✓	✓
Notes in History - Additional notes storage when processing payroll			✓	✓
Reminders and Calendars - Grouped reminders and new calendar including user definable events			✓	✓
