

## Detailed features of Sage 50 P11D

---

### Sage 50 P11D

---

#### **Avoid fines**

Nobody wants a fine for submitting late or incorrect information, Sage 50 P11D 2009 helps ensure you enter the correct figures at the first time of asking.

#### **Cut your costs**

Save money and avoid the need for costly in-house tax expertise.

#### **Reduce your paperwork**

By cutting out complicated manual worksheets, you'll save yourself time and do your bit for the environment at the same time.

#### **Make sure your calculations are correct**

Use accurate calculations approved by leading tax specialists Ernst and Young, and accredited by HMRC.

#### **Keep confidential information secure**

Benefit from a choice of security levels and ensure you keep confidential information just that.

#### **Speed up your processes**

Transfer information quickly and accurately from Sage 50 Payroll.

#### **Start straightaway**

Get up and running in no time with our easy to understand user-friendly guides.

#### **Support:**

Includes SageCover support giving you access to a range of benefits including telephone and email support for your software.

#### **Stay fully compliant**

Enjoy peace of mind knowing that you're fully compliant with the current tax year, including:

- A new 10 per cent band was introduced for cars with a CO2 emissions figure of exactly 120g/km or lower (no rounding). They are called Qualifying Low Emissions Cars (QALECs)
- From 6 April 2008 the fixed figure for company car fuel increased to £16,900. Plus, the CO2 emissions lower threshold was reduced from 140 to 135.
- And cars with fuel type E85 (type G on forms P46 (car) and P11D) received a 2 per cent reduction

Amendments to forms P11D, P9D, P11D (b)
